Continuation of 5. does NOT place the application in condition for allowance because: the final rejection still holds for the claims amended after final. The Gutsche et al. reference disclose the newly added limitation of independent claims 1, 9 and 17 which is "wherein the inorganic dielectric ARC layer functions as a hard mask". Therefore, the final rejection was necessitated by amendment. Admitted Prior Art Figures 1a-3b is utilized for the teaching of an organic ARC layer 312 disposed on metal layer 314, and Gutsche et al. is utilized for the teaching of an inorganic silicon oxynitride hard mask 510. Gutsche et al. also discloses a residula photoresist layer 514 disposed on the inorganic dielectric ARC layer in Figure 5.
